

# INDEX

---

Abrasive Wheels, Report on Code for.....	741
Accidents, Losses Due to Industrial.....	237
Air Furnace Bungs, Behavior of Fire Brick in.....	381
Air Furnaces, Properties of Brick for Side Walls of.....	377
Air Furnaces, Refractories for.....	360
Air Furnaces, Time Required for Melting with Powdered Coal in...	465
Allis-Chalmers Mfg. Co., Tests Conducted by, on Annealing of Gray Cast Iron .....	167
Aluminum and Aluminum Alloy Melting Furnaces.....	562
Aluminum, Factors Governing Use of Secondary in Foundries.....	614
Aluminum Foundries, Metal and Fuel Losses in.....	564
Aluminum Foundry Problems, Discussion on.....	621
Aluminum, Furnaces for Melting.....	551
Aluminum Industry, Magnitude of.....	563
Aluminum, Melting, for Rolling into Sheet.....	551
Aluminum Melting Furnaces, Bibliography on.....	601
Aluminum Melting Furnaces, Description of.....	566
Aluminum Melting Furnaces, Factors Governing Selection of.....	598
Aluminum, Method of Casting Slabs.....	557
American Society of Testing Materials, Co-operation of A. F. A. with	5
American Steel Foundries, Report of Sand Reclamation.....	743
American Versus British Gray Cast Iron.....	116
Analysis Control in Acid Electric Steel Practice.....	314
Annealing Castings in Electric Furnace .....	653
Annealing Gray Cast Iron.....	167
Annealing Gray Cast Iron, Bibliography on.....	180
Annealing Gray Cast Iron, Results of Tests on.....	179
Annealing Time of Malleable Iron, Effect of Silicon on.....	418
Apprenticeship Training, Result of Questionnaire Sent to Foundry- men regarding .....	256
Apprentices, Report on Training of.....	254
Apprenticeship Law in Wisconsin.....	259
Arbitration Bar, Discussion on.....	183
Assistant Secretary, Appointment of R. E. Kennedy as.....	43
Association Technic de Fonderie de France, Papers Presented Through Courtesy of, .....	48, 79, 308, 336 and 420
Auditor's Report for Department of Exhibits.....	39
Auditor's Report for Technical Department.....	46

Bianche Saint Vaast Works, Notes on Destruction and Reconstruction of .....	71
Bibliography on Aluminum and Aluminum Alloy Melting Furnaces..	601
Blast, Effects of Hot and Cold, on Properties of Gray Cast Iron....	145
Blast Furnace Temperatures, Effect of, on Properties of Gray Cast Iron .....	129
Blow-Torch Principle in Open Hearth Design.....	327
Board of Directors, Annual Report of.....	7
Board of Directors, Minutes of Meetings of.....	11
Bond Tests of Sand.....	815
Brass and Copper Alloys, Fuels and Furnaces for Melting.....	499
Brass Forgings .....	541
Brass Forgings, Physical Properties of.....	548
Brass Forgings, Use of Chilled Cast Blanks for.....	545
Brass, Influence of Cerium in.....	627
Breaking Loads, Formula for Comparing of Square and Circular Test Bars .....	135
British Gray Cast Iron Compared with American.....	116
Bronze Castings, Factors Contributing to Segregation in High-Lead	513
Bulletin of the American Foundrymen's Association, president's comments on publishing of .....	3
Bung Brick, Composition of Air Furnace.....	375
Bung Brick, Manufacture of Air Furnace.....	371
Bungs, Behavior of Fire Brick in Air Furnace.....	381
Bungs, Laboratory Tests of Air Furnace.....	382
Burns from Hot Metal, Selection of Clothing for Prevention of....	241
By-laws, revisions proposed .....	24
Carbon, Controlling in Acid Electric Steel.....	320
Carbon, Relation of, to Silicon in Gray Iron Mixtures.....	124
Carbon Dioxide Charts .....	437
Carbon Dioxide Recorders for Controlling Combustion of Powdered Coal .....	431
Carbon Dioxide Recorders, How Used.....	433
Carpenter, H. A., Resolutions Offered on Death of.....	31
Castings, Loss to Foundryman on Account of Overweight.....	205
Castings, Making Two Part Nonferrous, in Three Part Molds.....	505
Castings, Problems Encountered in Handling Overweight.....	194
Castings, Segregating, According to Size for Cutting off Risers....	713
Cast Iron, Report on Specifications for.....	213
Cast Iron, Suggestions for Study of Corrosion of.....	209

Cast Iron, Summary of Factors Affecting Corrosion of.....	207
Cerium in Brass and Steel, Tests with.....	626
Cerium, Tests with, in Gray Iron.....	629
Chills, Use of, in Aluminum Practice.....	615
Clay, Effect of Adding to Silica Sand.....	782
Clay, Study of Displacement of Sand by in Molding Sand Tests....	817
Clothing, Safe, for Foundry Workers.....	236
Coal, Storing and Handling.....	449
Cocard Co., Jules, Notes on the Destruction and Reconstruction of the Foundries of .....	75
Code for Abrasive Wheels, Report on.....	741
Coke, Shatter Test for Foundry.....	214
Committees, Growth of, in work of A. F. A.....	4
Compressed Air, Statement why, is Used Extensively in America for Molding Machines.....	93
Conventions and Exhibits, Minutes of Meetings of Committee on....	11
Converters, Discussion on Tropenas.....	341
Converters, Factors in Design of Side-Blown.....	345
Converters, Historical Sketch of Early Development of.....	337
Converters, Past, Present and Future of Side Blown.....	336
Copper and Brass Alloys, Fuels and Furnaces for Melting.....	499
Core Baking, Electric Heat for.....	641
Corebox, Difficulties Encountered in Designing, for Testing Sand...	808
Corebox, of New Design used for Testing Sand .....	801
Core Oven Design, A Study of Insulated.....	680
Core Ovens, Comparison of Cost of Operating Electric and Oil Fired	703
Core Ovens, Description of Tests of.....	684
Core Ovens, Effect of Ventilation on Efficiency of.....	691
Core Ovens, Heating Capacity of.....	681
Core Ovens, Test on Oil Fired.....	699
Corrosion of Cast Iron .....	206
Corrosion of Cast Iron, Discussion on Advisability of Studying....	210
Cost System for Gray Iron Foundry of Medium Size.....	282
Cost System, Need of Simple, for Small Foundries.....	5
Cranes, How to Estimate Horsepower Required for Foundry.....	659
Cranes in Foundry Service, Electric.....	657
Cranes, Speeds of Foundry.....	657
Cupola Melting Tests with Mixtures Changing During Run.....	159
Cupola Practice, Factors in, Influencing Quality of Cast Iron.....	138
Cutting with Oxyacetylene, Holding Work for.....	711
Cutting with Oxyacetylene, Speed of.....	715
Department of Commerce, Cooperation of A. F. A. with.....	2, 26
Department of Exhibits—Auditor's Report for.....	39

Depression, Cycles of, and their Prevention.....	272
Draft, Evils of Excessive.....	198

Efficiency of Labor, Increasing.....	222
Electric Heat, Use of, in Foundries.....	635
Electric Heater, Applying, to Pattern.....	673
Electric Furnace, A new French .....	308
Electric Furnace, Advantages of Portable Metallic Resistor.....	639
Electric Furnace, Description of French.....	311
Electric Furnace for Melting and Annealing Malleable.....	645
Electric Furnaces for Aluminum.....	594
Electric Steel, Controlling Analysis in Making Acid.....	314
English Molding Machines, Description of.....	98
Enrollment in Technical School Foundries.....	247
European Versus American Molding Machine Practice.....	89
Exchange papers, A. F. A. policy in inaugurating, with foreign foundrymen's associations .....	3
Exchange Papers.....	48, 79, 116, 308, 336, 420
Executive Committee of Board of Directors, Minutes of Meetings of .....	11
Extrusion Process of Making Brass Forgings.....	543
Eye Protection and Safe Clothing in the Foundry.....	236

Facing Sand, Composition of New.....	831
Facing Sand, Old Versus New Material for.....	830
Finances of A. F. A., summary of, by the secretary-treasurer.....	45
Fire Clay, Grinding in Wet Pans .....	364
Fire Clay, Method of Mining.....	363
Fire Clay, Properties of .....	373
Fire Brick, Analyses of, for Air Furnace Bungs.....	388
Fire Brick, Behavior of, in Malleable Furnace Bungs.....	381
Fire Brick, Burning .....	368
Fire Brick, History of .....	361
Fire Brick, Methods of Molding.....	366
Fire Brick, Relation of Density to Porosity.....	391
Flask Equipment for Molding Machines.....	726
Flasks, Importance of Good Bottom Boards.....	738
Flasks, Laying Out of.....	727
Flasks, Material for .....	728

Fluxes, Use of, in Aluminum Practice.....	614
Flywheels, Statement regarding Failure of American cast.....	117
Foreign foundrymen's associations, A. F. A. policy of exchange papers with .....	3
Forgings, Brass .....	541
Foundries in Technical Schools.....	245
Foundry Cost System, Forms Used in.....	288
Foundry Cost System, Outline of .....	282
Foundry Courses in Technical Schools.....	248
Foundry Standards, Desirability of Resuming Work on International	186
Foundry Standards, Importance of International.....	190
Foundry Standards, Resume of Past Efforts to Introduce International	186
Foundry Standards, Views of European Foundrymen on International	188
Foundrymen's Technical Association of France, personnel of commit- tee of .....	48
French Foundries, Destruction and Reconstruction of.....	48
French Foundries, Difficulties in Restoring Destroyed.....	52
French Foundries, General Character of Destruction of, During World War .....	50
French Molding Machines, Description of.....	99
Fuels and Furnaces for Melting Copper and Brass Alloys.....	499
Furnaces for Melting Copper and Brass Alloys.....	499
Furnaces, Open Flame, for Aluminum.....	587
Furnaces, Pit, for Aluminum.....	573
Furnaces, Reverberatory, for Aluminum.....	592
Furnaces, Stationary Crucible, for Aluminum.....	575
Furnaces, Stationary Iron Pot, for Aluminum.....	580
Furnaces, Tilting Crucible, for Aluminum.....	578
Furnaces, Tilting Iron Pot, for Aluminum.....	584
Gaggers, Avoiding Use of.....	726
German Molding Machines, Description of.....	97
Goggles, Importance of Issuing, That Fit.....	239
Goggles, Methods of Inducing Workmen to Wear.....	238
Graphitization of White Cast Iron, Influence of Temperature and Composition on .....	413
Graphitization of White Cast Iron, Relation of Temperature to Form and Character of Graphite Particles in.....	395
Graphitization, Theory of.....	395
Gray Cast Iron, Annealing.....	167
Gray Cast Iron, Effect of Blast Furnace Temperatures on Proper- ties of .....	129

Gray Cast Iron, Examples of Inferior American.....	116
Gray Cast Iron, Resistance of, to Superheated Steam.....	143
Gray Cast Iron, Strength of Typical American Specimens.....	148
Gray Cast Iron, Tensile Strength of British and American, Compared	121
Gray Cast Iron, Tests with Cerium in.....	629
Gray Cast Iron, Theories Regarding Formation of Network in..	130
Grinding Pans, Discussion of Action of.....	844
Guillemin, Sergot & Pegard, Destruction and Reconstruction of Foundries of .....	65
Guise Co-operative Society, Notes on Destruction and Reconstruction of Foundry of.....	62

Hardness, Relation of Wearing Properties of Gray Iron to Its....	182
Heap Sand, Disadvantages of Using Without Preparing It.....	832
Heat in Electric and Fuel Fired Furnaces.....	637

Index, to Transactions of A. F. A., president's comments on publish- ing of .....	3
Industrial Depression, effect of, on activities of A. F. A.....	1
Industrial Depressions, Cause of.....	274
Industrial Education, Report on.....	254
Industrial Waste, Prevention of.....	262
Institution of British Foundrymen, annual exchange paper.....	116
Insulation of Core Oven, Comparison of Ideal and Actual.....	705

Jar Ramming, A discussion on advantages and disadvantages of....	91
Job Analysis, Example of.....	233
Job Analysis in the Foundry.....	220
Joint Conventions of Foundrymen, Hope for, Expressed.....	115
Jones, W. A., Resolutions presented on death of Past President.....	22

Keep's Test, Discussion of Use of.....	123
Kennedy, R. E., appointment of, as assistant secretary.....	43

Labor, Responsibility of, In Preventing Industrial Waste.....	269
Ladles, Calculating the Turning Moment of Geared.....	668
Ladles, Design of Geared.....	663
Ladles, Types of Gearing on Foundry .....	664
Malleable Annealing Ovens, Use of Powdered Coal for.....	473
Malleable Castings, Specifications for, Report on.....	483
Malleable Iron, A French Triplex Process for Making .....	427
Malleable Iron, Effect of Silicon on Annealing Time.....	418
Malleable Iron, European Efforts to Increase Strength of.....	421
Malleable Iron, Experiments with Electric Furnace for Making....	424
Malleable Iron, German Method of Making.....	425
Malleable Problem, European View of.....	420
Management, Responsibility of, in Preventing Industrial.....	268
Manager of Exhibits, Report of.....	37
Manganese, Controlling, in Acid Electric Steel .....	321
Manganese, Effect of, in Gray Iron Mixtures .....	126
McCook Field, Description of Foundry and Outline of Control.....	484
Mechanical Testing of Gray Cast Iron, Comparison of British and American Methods of.....	119
Melting Losses in Technical School Foundries.....	250
Melting Losses in Aluminum Foundries.....	565
Melting, Tests Show, Takes Place Higher in Cupola Than Is Gen- erally Supposed.....	163
Melting Tests with Mayari Pig Iron to Show Intermingling of Charges in Cupola .....	160
Membership of A. F. A., Secretary's Report on.....	42, 43
Metal Patterns, Heating, Electrically.....	670
Moisture Content, Assuring Proper, in Molding Sand Tests.....	820
Moisture Content in Molding and Core Sand, Discussion of....	824
Moisture Content of Molding Sands, Obtaining Proper.....	828
Molding Machines, Description of Electric.....	98
Molding Machines, Description of English.....	98
Molding Machines, Description of French.....	99
Molding Machines, Description of German.....	97
Molding Machines, Hydraulic and Compressed Air, Compared.....	89
Molding Machine Practice, European, Compared with American....	89
Molding Sand, As One of Three Factors in Operation of Successful Foundry .....	869
Molding Sand Binders .....	834
Molding Sand, Criterion of Good.....	870
Molding Sand, Discussion on Bond of.....	861

Molding Sand, Discussion on Effect of Clay Additions on Grain Size	791
Molding Sand, Discussion on Equipment for Preparing.....	842
Molding Sand, Discussion on Reports of Committees on.....	860
Molding Sand, Effect of Additions of Clay to Grain Size.....	782
Molding Sand, Efficiency of Binder in.....	833
Molding Sand, Element of Competition in Shipping of.....	863
Molding Sand, Element of Price in Supplying Desired Grades of....	866
Molding Sand, Importance of Supervision in Preparation of.....	838
Molding Sand, Method for Testing Green Bond Strength of.....	796
Molding Sand, Need of Cooperation Between Shipper and User.....	867
Molding Sand, Preparation of, Discussion on.....	835
Molding Sand Research, Personnel of Committee on.....	848
Molding Sand Research, Report of Work Done by Committee on....	847
Molding Sand Research, Report on.....	846
Molding Sand, Report of Sub-committee on Methods of Testing....	858
Molding Sand, Report of Committee on Geological Investigation of..	855
Molding Sand, Significance of Screen Test for.....	762
Molding Sand, Testing of, from Standpoint of Seller of Sand.....	836
Molding Sand Tests, Time Element in.....	825
Molding Sand, Theoretical Composition of.....	763
Mold, Three Part, for Two Part Nonferrous Castings.....	505

National Research Council, A. F. A.'s Co-operation with.....	4
Necrology, as reported by the secretary.....	43
Nonferrous Foundry Practice, Technical Control in.....	484

Olizy Foundry, Notes on Destruction and Reconstruction of.....	60
Open Hearth Furnace, Advantages of Blowtorch Design.....	334
Open Hearth Furnace, Blowtorch Principle in Design of.....	327
Open Hearth Furnace, Heat Balance of.....	324
Open Hearth Furnace, Performance of, Equipped with Newly De- signed Ports .....	330
Open Hearth Furnaces, Developments in .....	325
Open Hearth Process, Recent Progress in.....	324
Oxyacetylene Cutting and Welding in Foundries.....	708

Patternmaking, Precautions to be Taken in, to Guard Against Overweight Castings .....	197
Patterns, Methods of Heating Metal.....	670
Patterns, Suiting the Flask to the .....	732
Perbal Foundry, Notes on Destruction and Reconstruction of.....	60
Pero, J. P., Resolutions offered on death of Past President.....	35
Phosphide Cementite Network, Discussion on, of Gray Cast Iron....	140
Phosphide Eutectic, Appearance of, in Gray Cast Iron of High Strength .....	128
Phosphorus, Distribution of, in Gray Cast Iron.....	126
Phosphorus in Steel, Report of Committee on.....	305
Physical Tests, as Carried on at McCook Field Foundry.....	490
Piat, Sons & Co., Notes on Destruction and Reconstruction of Foundries of .....	72
Piece Work Prices, How to Set Equitable.....	220
Piece Work Prices, Methods of Basing.....	231
Pig Iron, Comparison of Quality of American and British.....	153
Pig Iron, Influence of, on Gray Cast Iron.....	136
Pit Furnaces for Aluminum .....	573
Pont a Mousson Blast Furnace Co., Summary of destruction and reconstruction of plants of.....	55
Powdered Coal, Controlling Air and Coal Mixture.....	450
Powdered Coal, Factors in Use of, in Malleable Foundries.....	479
Powdered Coal, Kinds of Coal Suitable for .....	456
Powdered Coal, Methods of Introducing in Furnace.....	462
Powdered Coal, Moisture in .....	458
Powdered Coal Plant, Power Consumption of.,.....	453
Powdered Coal, Use of Carbon Dioxide Recorders for Controlling Combustion .....	431
Preparation of Steel Foundry Sands.....	826
Pulverized Coal, History of Use of.....	447
Pulverized Coal in Malleable Foundries, Use of.....	447
Pulverizing, Fineness of, Coal.....	459
 Ramming, Advantages of Pressure .....	95
Ramming, Methods of, Preferred in France.....	96
Rapping of Pattern, Excessive, Leads to Overweight Castings.....	199
Refractories for Air Furnaces, Manufacture and Properties of....	360
Refractories, Properties of Miscellaneous.....	379
Regenerators, Discussion on Design of, for Open Hearths.....	332
Report on A. F. A. Committee on Foundry Costs.....	282

Report of A. F. A. Committee on General Specifications for Cast Iron	213
Report of A. F. A. Committee on Industrial Education and Training of Apprentices	254
Report of A. F. A. Committee on Safety, Sanitation and Fire Prevention	243
Report of A. F. A. Committee on Specifications for Malleable Iron Castings	483
Report of A. F. A. Committee on Specifications for Steel Castings	351
Report of A. F. A. Committee on Steel Foundry Standards	349
Report of A. F. A. Representative on Joint Committee on Investigation of Phosphorus and Sulphur in Steel	305
Report of A. F. A. Sub-committee on Specifications for Cast Iron Wheels	215
Report of Committee on Safety Code for Use and Protection of Abrasive Wheels	741
Report of Joint Committee on Molding Sand Research	846
Report of Sub-Committee on Geological Investigation of Molding Sands	853
Report of Sub-Committee on Standard Methods of Testing Molding Sand	858
Report on Sand Reclamation Investigation of the American Steel Foundries	743
Riddle, Design of, for Sand used for Testing	810
Risers, Cutting, with Oxyacetylene	712
Sand, Effect of Clay Content on Weight of	818
Sand, Experience in Tests of Moisture Content	813
Sand Mixing Apparatus, Development of	827
Sand Mixers, Methods of Loading Ingredients for Proper	829
Sand, Preparation of Steel Foundry	826
Sand Reclamation, Cost of	755
Sand Reclamation Report of American Steel Foundries	743
Sand Reclamation, Theory of	744, 747, 750
Sand Reclaimer, Capacity of Proposed	758
Sand, Reclaimer for Dry Refuse	752
Sand Reclaimer, Proposed	756
Sand Strips for Flasks	729
Sand Tests, Importance of Keeping Sand out of Working Parts of Testing Apparatus	803
Screen Tests for Molding Sand, Discussion on	777
Screen Test for Molding Sand, Significance of	762

Seaman, J. S., Resolutions offered on death of Past President.....	23
Secondary Aluminum, Use of, in Foundry Practice .....	613
Secretary-Treasurer, Annual Report of.....	41
Segregation, Conclusions Based on Tests of, in High Lead Bronze	530
Segregation, Study of, in High Lead Bronze.....	511
Shock Tests for Gray Cast Iron.....	133
Silica Sand, A Study of the Change in Grain Size of .....	782
Silicon, Relation of, to Carbon in Gray Iron Mixtures.....	124
Slicking as a Factor in Production of Overweight Castings.....	203
Spalling Losses in Air Furnace Bung Fire Brick.....	385
Special Gray Irons, What Constitutes.....	143
Specifications for Cast Iron .....	213
Specifications for Cast Iron Wheels.....	216
Specifications for Malleable Castings, Report on.....	483
Specifications for Steel Casting, Report on.....	351
Squeezer Type Molding Machines, Discussion of Use of.....	94
Statistics, Importance of Cooperation in Supplying Information for	279
Statistics, Use of, in Avoiding Depressions.....	275
Steel, Causes of High Silicon in Electric.....	318
Steel, Causes of Low Silicon in Electric.....	317
Steel, Controlling Analysis in Making Acid Electric.....	314
Steel, Controlling Carbon in Electric.....	320
Steel, Report of Committee on Effect of Sulphur and Phosphorus on	305
Steel, Tests with Cerium in.....	631
Steel Castings, Report of Committee on Specifications for.....	351
Steel Foundry Sands, Preparation of .....	826
Steel Foundry Standards, Report of A. F. A. Committee on.....	349
Sulphur, Effect of, in Gray Iron Mixtures .....	125
Sulphur, Injurious Effects of, Overrated .....	156
Sulphur in Steel, Report of Committee on.....	305
Technical Department, Auditor's Report for .....	46
Technical Control of the McCook Field Foundry.....	484
Technical School Foundries .....	245
Tensile Strength of Gray Cast Iron.....	120
Tensile Tests, Criticism of, Due to Eccentric Loading of Machines	150
Tensile Tests, Disadvantages of, for Gray Cast Iron.....	119
Test Bars, Criticism of Square.....	154
Test Bars, Discussion on Comparison of Round and Square.....	145
Test Bars, Formula for Comparing Strength of Round and Square	135
Time Studies and Job Analysis in the Foundry .....	220
Time Studies, Value of .....	223

Transverse Tests for Gray Cast Iron, Interpretation of American and British .....	122
Triplex Process for Making Malleable, A French.....	427
Typewriter Frames, Making, in a Belgian Foundry.....	79
Typewriter Frames, Molding practice in making in a Belgian Foundry ..	81
Waste, Methods of Preventing Industrial.....	263
Weight of Iron Castings, A Study of the.....	193
Weight of Iron Castings, Importance of Avoiding Unnecessary.....	193
Welding and Cutting, Equipment for.....	708
Welding, Applications of, in Foundry.....	719
Wheels, Specifications for.....	215
Wisconsin Apprenticeship Law.....	259
